Technical Skills

Languages and Databases: React js, Node js, Express js, MongoDB, SQL, HTML, Tailwind CSS, JavaScript, C++
Testing/Deployment Tools : Github, Jira , Vercel , Firebase , Postman, Black Box, White Box, Unit, Functional Testing
Other Skills: Advanced Excel, Communication, Customer Acquisition , Selenium ,Playwright , Cyprus, AI

Professional Summary

Software Engineer with expertise in Full Stack development and database management. Proficient in React.js, Node.js, Python, SQL and MySQL, with hands-on experience in PostgreSQL, and MongoDB. Skilled in writing complex queries, stored procedures, triggers, and optimizing database performance through indexing and schema design. Experience in building scalable applications with robust backend APIs, improving system efficiency, and delivering measurable results through performance tuning and database optimization.

Experience/Projects

Elegant Mart-Grocery Store Website

Oct 2025-Dec 2025

Technologies: MERN

- Built a full-stack e-commerce platform with dynamic product listing
- Integrated cart system, user checkout, and admin panel for product management
- Focused on responsive design and data persistence

StudyNet – Discussion Forum , Course Review Website, Past Papers

May 2026-June 2026

Technologies: MERN

- Developed a discussion forum, course review platform, and past papers portal using the MERN stack.
- Implemented user authentication, profile management, discussion threads, and course reviews.
- Integrated an AI chatbot to assist users with academic queries and platform navigation.
- Tested application features and validated CRUD operations to ensure data integrity and reliability.

Pin Auto -Pinterest Automation Tool

Jan 2026-Feb2026

Technologies: MERN

- Developed a Pinterest automation platform to schedule and publish pins automatically.
- Integrated AI to generate pin titles, descriptions, and hashtags for optimized engagement.
- Implemented secure user authentication, board selection, and post scheduling.
- Tested automation workflows and validated API integrations to ensure reliable pin publishing.

Bank Management System

Nov 2023-Dec 2023

Technologies: C++

- Developed a Bank Management System using OOP and file handling concepts.
- Implemented account management, transactions, fund transfers, and secure customer record storage.

Awards & Achievements

COMSATS ACM Society

Sep 2024 – Present

Programming, Event Coordination, Team Leadership

- Participated in ACM coding competitions, solving algorithmic and problem-solving challenges.
- Volunteered in organizing programming events and assisted participants during competitions.
- Contributed to event management and coordination, ensuring smooth execution and positive participant experience.

Education

COMSATS LAHORE

Bachelor of Software Engineer (BSE)

Sep 2023 – Jun 2027

Lahore, Pakistan
